Summary

SDE Intern candidate and CS undergraduate at IIIT Kota (2024–28) with hands-on experience building and deploying production-grade full-stack applications using React, Node.js, and Express.js. Solved 100+ DSA problems across LeetCode and Codeforces; CodeChef 2-Star rated. Proven track record of owning complex projects end-to-end — from system design and API development to cloud deployment.

Education

Indian Institute of Information Technology (IIIT) Kota <i>B.Tech in Computer Science and Engineering / CGPA: 7.2</i>	2024 – 2028 <i>Kota, Rajasthan</i>
Floradale Public School <i>Senior Secondary (CBSE Class XII) — 85%</i>	2022 – 2023 <i>Sri Ganganagar, Rajasthan</i>
Sacred Heart Convent School <i>Secondary (CBSE Class X) — 94%</i>	2020 – 2021 <i>Sri Ganganagar, Rajasthan</i>

Technical Skills

Languages : C, C++, Python, JavaScript, SQL, HTML, CSS
Frontend : React, AngularJS
Backend : Node.js, Express.js, RESTful APIs, JWT, bcryptjs, Socket.io
Database & Tools: MongoDB, SQLite, Git, GitHub, Docker, Postman
Core CS : DSA, OOPs, DBMS, Operating Systems, System Design

Projects

SupportSense AI <i>React, Node.js, Express.js, OpenAI API, Socket.io, SQLite</i> Live GitHub	June 2026
- Architected a full-stack multi-agent AI platform with React frontend, Node.js/Express.js REST backend, and SQLite persistence - enabling autonomous ticket triage and resolution through a 3-agent adversarial debate pipeline for Microsoft Agent League Hackathon. - Secured backend with RBAC middleware, XSS sanitization, rate limiting at 10 req/min, exponential backoff retries, and an immutable append-only audit trail - containerized and deployed to Railway via Docker across 67 production builds. - Built a real-time ROI dashboard via Socket.io streaming cost savings (\$75 manual vs \$4.50 AI) with 2.5x complexity multipliers for critical tickets.	
AI Style Mirror App <i>React, Node.js, Express.js, MongoDB, JWT, RESTful API</i> GitHub	May 2026
- Built a full-stack virtual try-on platform for Prodcam 4.0 2026 with React frontend and Node.js/Express.js backend - ML model maps 5 body measurements to garment size recommendations via RESTful API. - Engineered complete auth system with JWT session management, OTP generation with 30-second resend logic, and Nodemailer dispatch secured with bcryptjs hashing.	
Loan Calculator Web App <i>Node.js, Express.js, AngularJS, HTML, CSS</i> GitHub	Jan 2026
Built a full-stack EMI calculator exposing 3 RESTful endpoints; decoupled frontend via AngularJS \$http services with real-time client-side validation across Chrome, Firefox, and mobile viewports.	

Experience

General Secretary — Senior Executive <i>Techknow Council, IIIT Kota (Junior Executive: Aug 2024 – Apr 2025)</i>	Aug 2025 – May 2026
- Led Eigen 2025 (IIIT Kota's annual Technical Fest) - owning full lifecycle across 10+ events and 500+ participants; delivered all milestones on schedule with zero budget overruns. - Co-facilitated Tech Summit 2024 for 200+ students across 3 concurrent tracks; maintained structured documentation for 5+ events with zero compliance gaps.	
Event Manager <i>Clutch (E-Sports Club), IIIT Kota</i>	Aug 2024 – Present
Design and manage double-elimination brackets for 64-team tournaments; direct end-to-end logistics for 4+ events with 120+ participants each - zero schedule delays across all events.	

Achievements & Certifications

Microsoft Agents League Hackathon 2025 — Built SupportSense AI for Enterprise Agents Track; production-deployed multi-agent platform across 67 Railway builds.

Adobe India Hackathon — Cleared Round 1 coding and MCQ assessment testing DSA, algorithms, and engineering problem-solving. [Certificate](#)

IIT Guwahati — Completed 6-week analytics program covering EDA, data visualization, and Python-based analytics. [Certificate](#)

Runner Up — BGMI E-Sports Tournament, IIIT Bhagalpur; awarded Rs. 5,000 prize. [Certificate](#)
